

## **Evangelism Ministry**

The aim of this ministry is to reach and teach those among our midst who need additional information to either become a Christian or mature in some area of Christian life. We have selected members of our congregation who have experience in teaching and baptizing our members and visitors. This ministry is not a visitation ministry, nor a door knocking ministry, nor an effort to reach outsiders. It is an effort to reach some of the people already attending Friendly Avenue and have not made a decision to become a Christian. These may be members of our families (husbands, wives, sons, daughters, or friends attending with us) who wish to study any phase of the Christian life.

It will be an aggressive approach without accusing, debating, condemning, or making judgments, but rather an effort to clear up misunderstanding of Scripture or a lack of knowledge on a certain subject.

Please help us out by contacting one of the members of this ministry listed below and make an appointment to begin your study. We want to reach every person attending here to either become a Christian or mature as one.
